

SECTION 01 35 00

SPECIAL PROCEDURES

Notes: This section is to be included if the Project requires any special procedures to be observed by the Builder or if the Owner requires special procedures to be followed by the Builder during the execution of the work. The Professional is to identify such Project requirements and to coordinate the requirements with the Owner for incorporation in the documents as necessary.

RELATED SECTIONS:

Section 01 30 23 Owner's Safety Requirements.

Section 01 35 23 General Safety Requirements

Section 01 35 29 Health Safety and Emergency Response Procedures

A. EMERGENCY WEATHER CONDITIONS

1. The Builder shall be prepared to shut down or alter his operation during periods of emergency weather situations as may be advised by NOAA's National Weather Service (Tornado Watch, Tornado Warning, Hurricane Watch, Hurricane Warning, Tropical Storm Watch, Tropical Storm Warning, etc). Immediately upon the issuance of formal notification of a Hurricane Watch, the Builder shall prepare a Plan of Action for the specific actions to be taken on the Project in preparation for such an anticipated adverse weather situation.
 2. During such periods of time as are designated as being a Hurricane Warning, the Builder shall perform all precautions as necessary to safeguard the Work and Property, including the removal of all construction fence screening, small equipment and materials from the site, securing all other equipment and material or any other additional safety measures as directed by the Owner.
 3. Prior to commencement of any construction activity, Builder shall provide owner with a listing of emergency contact phone numbers for all main office and field personnel, inclusive of personal home numbers, cell numbers and e-mail addresses.
