A. List of Applicable Requirements:

Infrastructure enhancements to allow safe operation of emergency responder radios (FIUPD and external) and cellular telephones.

Include the installation of cameras and locknetics to include any support requirements. The specific equipment should be determined by Facilities.

No outside security companies should be allowed to provide security on FIU property.

All construction should be communicated to FIU Community to allow for planning (traffic/special events).

B. List of Applicable Regulations, Policies, Procedures:

C. Standard Protocol/Process:

Any new construction to take place should include approval/input from Police, Facilities, and Emergency Management to ensure minimum requirements regarding cameras, electronic locks, AEDs, and other EH&S safety measures.

D. List Applicable Exclusive Contracts (if any):

E. Other Information:

Clear procedures regarding jurisdiction must be addressed ahead of time. This is very important to ensure compliance with mandates such as Clery, Title IX, etc.
